SUBMISSION OF SUBSTITUTE SEQUENCE LISTING

Assistant Commissioner for Patents
Washington, DC 20231

Sir:

In response to the Raw Sequence Listing Error Report which was transmitted with the Notice to File Missing Parts, mailed February 21, 2001, Applicants submit herewith a replacement Sequence Listing in both a paper copy and a computer readable form which comprises the nucleotide and amino acid sequences contained in the application as filed. The information relating to the sequences is identical to the sequences as filed in the original application. However, the Sequence Listing now contains the corrected organism fields as required. Pursuant to 37 C.F.R. § 1.821(e), the paper copy and the computer readable form are the same.
